Overcoming Barriers to Nursing Education

The cost of a four-year nursing education to earn a Bachelor of Science in Nursing (BSN) is a daunting barrier to student nurses from low-income households to complete their nursing studies and to enter the nursing workforce in Texas. To overcome this obstacle, JHG Texas provides financial assistance through scholarships based on merit and need. JHG also engages in mentoring through free tutoring and academic support to student nurses, who could not otherwise pursue a baccalaureate degree in nursing.

"With this scholarship, I am able to focus more on my studies. It has allowed me more time and energy to put towards studying. I am forever grateful that I was chosen to receive this scholarship."

JHG provides financial support to student nurses who experience a catastrophic financial setback resulting in housing or food insecurity or inability to make tuition payments. This helps to ensure that the affected student can continue her/his education without interruption, supporting our goal of 100% retention.

"I'm very grateful for the scholarship! As I continue my nursing education, it not only helps me financially, but the support gives me even more motivation to be the best nurse I can be. It is wonderful that they believe in students like me and help me accomplish my goal to serve others as a nurse. The Knights have encouraged me through their scholarship!"
